

Engineering Internship Application

The Wisconsin Broadcasters Association and Wisconsin Broadcasters Association Foundation know there is a shortage of qualified broadcast engineering talent, and we want to help fill that need by offering internships at participating radio and television stations over the summer months. These internships will begin on June 15 and end on August 15, 2010. If you are interested please fill out the form below and return it to the Wisconsin Broadcasters Association. *We have set aside funding for these positions, and you will be paid for your services during your internship if you are selected to participate— **so you can learn and earn!***
